PUBLIC NOTICES

IMPORT TRADE CONTROL

New Delhi, the 31st March 1960

SUBJECT:—Import Policy for April—September, 1960 period.—Grant of licences on yearly basis.

No. 38-ITC(PN)/60.—Attention is invited to the import policy for the half year April—September, 1960 as announced in the Red Book for April—September, 1960 period.

(2) The Government of India have been considering ways and means to curtail procedural delays in the issue of import licences. Keeping this object in view "Repeat" licensing was introduced during October, 1959—March, 1960 period. It has now been decided to introduce annual licensing with effect from the 1st April, 1960 in regard to Actual User/quota licensing to the extent mentioned below:—

A. Actual User licensing in respect of the requirements of raw materials only for:—

- (i) Small Scale Industries.
- (ii) Certain specified scheduled industries as given in Annexure I.

The requirements for Plant and Machinery/Machine Tools and spares for repairs and maintenance of machinery will be licensed on half-yearly basis.

B. Actual user licensing in respect of the requirements of machinery for Tea, Jute and Coal industries.

C. Quota licensing in respect of items specified in Annexure II.—This will eliminate the necessity of making applications for import licences twice a year and will enable licence holders to procure their requirements more economically and in time to operate smoothly a programme of planned production.

(3) In order that this system of annual licensing does not lead to heavier withdrawals of foreign exchange during the first half year, import licences will be issued subject to the condition that payments for imports effected against these licences will be so staggered as to ensure that remittances during the first six months do not exceed 50 per cent of the face value thereof and payment for the balance will be spread over the succeeding six months.

(4) Actual Users/Established Importers who are eligible to obtain licences on annual basis should submit their applications for a yearly licence within the last dates prescribed in para 13 of Section I of the Red Book.

(5) Licences granted under this scheme will be valid for twelve months.

(6) It has also been decided to grant repeat licences to Established Importers for items specified in Annexure III, which are not subject to annual licensing and in respect of which no change has been made in the import policy for April—September, 1960 period. The procedure mentioned in the succeeding paragraph should be adopted for submission of applications for repeat licensing.

(7) It will not be necessary for the Established Importers to make applications in the prescribed form and manner to the licensing authorities for quota licences during the next half year. It will be enough, if the quota licences (or additional licences issued to them wherever applicable) in respect of the half year October, 1959—March, 1960 are sent along with a forwarding letter and the necessary Treasury Chalan to the licensing authorities which issued those licences. A certificate may be appended that the constitution of the firm has not undergone any change and the operative I.V.C./Exemption No. may also be quoted. The licensing authorities may make arrangements to receive such applications at the "Enquiry Counters" of the Regional Licensing Offices against a token and the 'Repeat licences' could be procured from those counters on the dates to be so specified. If through any circumstances, the Customs purposes copy of the licence is held up in Customs, the Exchange purpose copy may be sent to the licensing authority. In addition to the documents already prescribed for making applications for 'Repeat licences' the applicants should along with their applications for 'Repeat licences' also simultaneously forward their quota certificates in original for the purpose of endorsements at the back thereof. In cases where Exchange Control copies are in the custody of the Reserve Bank of India or other Exchange Banks for letters of credits already opened, the Established Importers need not make applications to those banks for return of the Exchange Control copies of their licences which have been surrendered to them and have become part of their records. In circumstances, where the importers are not in a position to produce either the Customs Purposes copy or the Exchange Control Copy of the licence granted to them during October, 1959—March, 1960 period, a photostat copy or an attested copy of the Customs purposes copy or Exchange Control Copy of the licence would also be accepted provided an undertaking on plain paper is given to the effect that the original copies of the licence are not available, or in the alternative, it is open to them to submit regular applications for grant of quota licences in the usual form and manner duly supported by the original quota certificates.
